Terrain / Maps:

1-st day 2015.04.25(WRE) – Middle distance.

Scale 1:10 000 , contours 2,5 m.

Map is made late 2014 and spring 2015 using LIDAR data.

Land surface forms are medium and small. There are depressions and hills of various sizes, some of them have very steep slopes. Biggest slopes are up to 25 meters. A lot of uncrossable marshes, mostly made by beavers. Only few roads and paths. Runnability is middle level.

Terrain was never used for orienteering before.

Start interval 2 min.

For WRE competitors will be quarantine zone. Dead line for entering quarantine is 13:30

There would be model map available in competition centre.

Only MW21E runners will run with bibs.

2-nd day 2015.04.15

Scale 1:10 000 , contours 2,5 m.

Map compiled from three maps: 1st day middle distance, 2014 Middle distance ([Daniliskes](#)) and ([Rusakalnis](#))

Revised in spring 2015 using LIDAR data.
